

DOG BIN ETIQUETTE

Dog bins are for the disposal of fouling from pets that are out walking only.

All waste collected from your home, should be placed into your normal green-lidded refuse bin where it will be taken to Greatmoor Energy from Waste and converted, along with your other refuse, into electricity. For more information visit:

<http://www.greatmoor.co.uk/>

All our bins are emptied weekly in winter & twice weekly in summer.

Should you find that the bin is full, please be considerate and take your bag to the next bin or take it home with you.

Please don't turn the bin into a bag tree, pile bags on the top or leave your bag on the floor. These may then become damaged and their content escape causing distress and posing health hazards.

Please do consider the neighbours, other residents walking/playing nearby, the contractors, other users and the environment - and use these bins responsibly. Thank you.
