### Volunteer Drivers Covid-19 Requirements

- Do not take a trip if you have had a new, continuous cough, fever or a loss of the senses of taste or smell at any time, in the preceding 7 days. This restriction also applies to you if any other member of your household has had these symptoms within the preceding 14 days.
- Wash your hands before leaving home.
- Wear a face covering before leaving your home and throughout the trip. If you do not have what you need, the Coordinator will drop one round before the trip.
- Clean and disinfect the car before and after the trip, pay particular attention to the touch points such as door handles, hold points, seat belt buckles etc.
- Increase ventilation in the car such as opening windows, avoid the recirculation mode of air conditioning.
- If at all possible, the client should sit in the back seat on the left-hand side of the car, behind the passenger seat.
- Although it will likely not be possible to maintain social distancing in the car, do maintain the 2 metre distance elsewhere, whenever possible, and continue to observe the recommended hygiene practices of regular hand washing, use of hand sanitiser and not touching your face.
- Place a container in the car where the client can drop the cash payment. Consider leaving the cash untouched for 72 hours.
- Keep tissues to hand in the car.
- Consider keeping a container for rubbish in the car, including used face masks. Dispose of these in bagged household waste.
- Clients should move unaided into the car.
- If you develop Covid-19 symptoms after you trip, you must inform the coordinator, take a Covid-19 test, and immediately advise the coordinator of the result.
